Dear Friends of the Preborn,

More bloody pulpits. My article entitled *Blood on the Pulpit* in our last mailing really struck a cord with people. We received many responses to that article. It seems the dire state of American Christianity is a real concern to many of you. And for good cause.

The truth is I could write a book about similar stories as the one I spoke of regarding Joel Osteen in the *Blood on the Pulpit* article. And that's just regarding stories dealing with abortion. There are countless other matters and areas in which the Church is failing which should and do horrify us also. But the failings for the helpless preborn continue to amaze me.

Since our last mailing, T. D. Jakes has spoken publicly and admirably about none other than - Barack Obama. In an editorial posted on CNN.com, he thanked Obama for "*bringing light and hope to a new generation.*" Jakes said he got "*goose bumps*" when Obama obtained enough delegates for the nomination, and called Obama's nomination "*a victory for democracy.*" He referred to Obama as "*competent*" and "*qualified.*" You can read the whole sorry commentary at <http://www.cnn.com/2008/POLITICS/06/04jakes/index.html?imw=Y&iref=mpstoryemail>.

Needless to say, Jakes said absolutely nothing about Obama's unmitigated support of abortion and homosexuality. Not only does Obama advocate for and support every means of murdering the preborn available through abortion, but he even spoke in opposition to a bill which would have made it illegal to kill a baby which survives a late-term abortion. That's right, if a baby would live through a late-term abortion, Senator Obama opposed giving the child any medical care or treatment. And T.D. Jakes, this 'man of God,' enamored with Obama's skin color, has **nothing** to say about how God views this innocent bloodshed. As I said in my article - "*The greatest guilt for this indifference towards this bloodshed is on pastors.*"

EXPOSING BLOODY COMPLICITY

The pro-abortion NEA (National Education Association) plans to endorse BARAK OBAMA at their national convention in Washington, D.C. next month. While they are there doing so, Missionaries to the Preborn, along with other pro-lifers around the nation, will be exposing their complicity with murder by picketing outside their buildings in every state in the nation.

ACOG wants to Impose Abortion on all Physicians

For the sixth year running, Missionaries to the Preborn has gathered at the national convention of ACOG (American College of Obstetrics and Gynecology) to expose their complicity with the abortion industry in America. This year ACOG is pushing their Opinion 385 which would require doctors who are opposed to abortion to refer patients to those who do abortions. Why impose such requirements now? Because fewer and fewer doctors are doing abortions. Therefore, the rabidly pro-abortion ACOG wants to force the many who do not do abortions to refer patients to the few who do.

A small crew of seven of us were there for three days. We caused the wicked no small consternation, and encouraged those who stand in opposition to the organization's pro-abortion platform. Doctors from Turkey, Chile, Mexico, and the Philippines, where abortion is illegal, thanked us profusely for being there. Mark Crutcher of *Life Dynamics* sent us thousands of pieces of literature to pass out at ACOG. They then did a mailing to every Ob-Gyn in America about abortion and Opinion 385. We wrote and inserted a flyer into the literature (see below).

ACOG Attempts to Remove RIGHT OF CONSCIENCE

On November 7, 2007, ACOG's Committee on Ethics released an Opinion, "The Limits of Conscientious Refusal in Reproductive Medicine" which states that every physician – *regardless of their personal convictions* – has a duty to either do elective abortions or refer patients to those who do.

Consider how far the medical community has now slid.

In the year 1871, the American Medical Association (AMA) published an article in which they described physicians which commit abortions as educated assassins. They said:

"Men who cling to a noble profession only to dishonor it; false brethren; educated assassins; these modern Herod's; these men who, with corrupt hearts and blood-stained hands, destroy what they cannot reinstate and destroy the fairest fabrics that God has ever created; under that cloak of medical profession."
-American Medical Association (AMA), 1871

The AMA went on to encourage physicians to act against those physicians which did commit abortions. They said:

"It becomes the duty of every physician in the United States to resort to every honorable and legal means in his power to crush out from among us this pest of society."
-American Medical Association (AMA), 1871

We call upon all in the medical community to oppose ACOG's pro-abortion agenda.

"...your brother's blood cries out to Me from the ground."

Short-Term Mission Opportunity!

During August of 2008, Missionaries to the Preborn will be conducting a short-term mission trip on behalf of preborn babies.

The Missionaries will conduct a trip to the state of Colorado *from August 18 to August 29*. A historic effort is underway in Colorado. This November, the people of Colorado will be able to vote "person" status for the preborn causing a direct challenge to Roe v. Wade! 76,000 signatures were needed to put this measure on the ballot. Over 130,000 signatures were obtained! Visit the website - **ColoradoforEqualRights.com** and catch the vision for this effort.

Preborn children are people made in the image of God. They are suffering gross injustice in our nation. Christianity affirms the humanity of these preborn babies and affirms that abortion is murder, therefore we should speak out against this injustice. If God would have you to be a part of this short-term mission, please fill out and return the form below.
